---

Gary,

The attached .pdf summary table was that check. I am doing the data management now and I used Tom's reporting tool to produce the summary table following the EDD import into scribe. I only included the EDD because I thought it was surprising that the results were so low and I thought you/Nic might have questions and want to cross-check.

The grids passed.

Thanks,

Sean G.

Hey Austin/Sean:

I assume that you will have Tom or someone put the data a table to do a final confirm on the data. Please make sure we let Don know once this is done as they will need to get DRA04 and 05 restored fairly quickly so that the landscaper can do their thing as well as begin restoration of FJD04-01 and DRA07W. I know they have dirt staged for FJD04-01 and DRA07W.

Thanks

Gary Moore

Sean,

Thank you, I just did a quick review of the raw data as well and agree all grids passed.

Thanks!

Austin

**Subject:** FJ Doyle - Confirmation Summary Table (Collected 20190201)

Austin,

Attached is the .pdf summary table for samples collected on 2/1/2019 (DRA04, DRA05, DRA07W, and FJD04-01). I've also attached the EDD for QA/QC purposes only. I did a quick check against the raw data and it looks like all grids passed.

Let me know if you have any questions.

Thanks!

*Sean Gavlas*
